

FOR IMMEDIATE RELEASE

New RFgen Software - Release 4 - Receives SAP® Certification

EL DORADO HILLS, CA – May 15, 2008 – The DataMAX Software Group, Inc., a leader in Mobile and Wireless Data Collection Software, has received confirmation of SAP's certification of its RFgen Software Release 4 with NetWeaver ECC 6.0. The SAP Integration and Certification Center, Palo Alto, CA certified that RFgen properly integrates with SAP ERP Releases 4.7 through 6.0. **SAP is the world's leading provider of business software.**

A Certified SAP integrator since 2004, this recent certification reflects a continuing effort to develop a fully integrated RFgen middleware that enhances existing SAP functionality, with real-time data exchange. RFgen couples its software with the strength of SAP to offer a dynamic mobile and wireless solution to ERP customers worldwide. The RFgen SAP interface includes 'Open Source' pre-built transactions which accelerate the implementation process, and allow customers to take ownership of, and completely manage, their data collection systems.

"This certification provides the RFgen SAP user base with the knowledge and assurance that DataMAX will continue to provide necessary RFgen upgrades to match SAP's product evolution" said Tom Eddinger, President and Chief Executive Officer. "As we move into the future with SAP, DataMAX will continue to add not only system enhancements to match SAP, but will also continue to add new functionality and capabilities to its suite of "Open Source" transactions," said Eddinger.

RFgen Software, installed in 2000+ business with over 30,000 daily users is a dominant player in the Mobile Data Collection Industry, encompassing wireless information collection "inside and outside the four walls of a business." Companies using RFgen for wireless and mobile applications receive optimum performance, a proven return on investment, and complete ownership of their system.

About the DataMAX Software Group, Inc.

Providing solutions since 1983, the DataMAX Software Group has a proven track record of success when it comes to designing, implementing and deploying wireless and mobile solutions.
