FOR IMMEDIATE RELEASE

RFgen's Mobile Data Collection Software Delivers Real-Time Data Collection for Exelis Inc.

EL DORADO HILLS, CA (January 14, 2014) – [RFgen Software](#) announced today Exelis Inc's decision to integrate RFgen's mobile data collection solution with its Deltek® Costpoint ERP system to solve its inventory information divide. As leader in wireless and mobile data collection software solutions, RFgen provides companies with flexible and reliable mobile computing solutions for barcoding, warehouse automation, supply chain management, manufacturing and mobile field service.

Exelis has highly specialized needs that RFgen is completely capable of meeting," said Alex Parker, Supply Chain Manager at Exelis. "With our new data collection solution integrated with our Deltek Costpoint manufacturing suite, we will have bi-directional, real-time information exchange and up to the minute visibility of the entire shop floor at any moment in time. This is a powerful and integrated solution that will reduce manual data collection and data entry, reduce or eliminate paper based tracking, improve speed and accuracy, and provide Exelis a significant competitive advantage."

About Exelis Inc.

Exelis provides mission-critical, next generation solutions for the command, control, communications, computers, intelligence, surveillance and reconnaissance market. Exelis builds advanced technologies that perform flawlessly whether they are far above the earth or in the middle of a ground-based firefight.
