

Customer Testimonials

RFgen is one of the applications where we can achieve extremely high return on investment. It is so scalable that you can implement this product on any process.

— Project Manager, **California Utility Company**

RFgen has eliminated waste in data collection and improved information flow complementing our Lean Manufacturing initiative, bringing us one step closer to a true 'perfect' plant. RFgen has provided transparency across the organization including efficiency, utilization, quality, and late order alerts.

— David Kelly, Business Analyst, **Madix Company**

RFgen did a great job from start to end. Overall, it was an absolute win for our company.

— Ken Meyers, Director, Information Systems, **Schwing America**

RFgen has enabled us to achieve a paperless production process, saving us tens of thousands of dollars and nearly 60,000 sheets of paper each year.

— Joe Ivanenok, Executive, **Vision Engraving**

Customer Testimonials

Even the project's biggest skeptic told me
'I love barcoding' after we deployed RFgen.

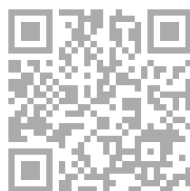

— Chris Lorentz, Business Systems Analyst, **Insitu**

Accuracy has gone up to 99.999 percent. But RFgen
also improves productivity and that drives efficiency
downstream. RFgen makes a huge difference in
how quickly CyberCore can invoice our customers,
improving our cash flow.

— Jason Mulholland, Director of IT, **CyberCore**

We took that leap with RFgen and it really drove
automation in every corner of our organization.
It is a night and day difference.

—Paul Nonno, Director of Distribution Operations, **Myers Tire Supply**
