RFgen

INVENTORY MANAGEMENT. FAST. ACCURATE. EFFICIENT.

RFgen Mobile Foundations for Deltek Costpoint provides a Deltek-validated suite of wireless barcoding and mobile applications for inventory management, purchase order processing, and manufacturing that supports real-time communication with your Costpoint system.

GO PAPERLESS

Get rid of costly, error-prone manual, paper-based processes with barcoding and RFgen mobile applications that enable instant, reliable updates to Deltek Costpoint.

INCREASE WORKER PRODUCTIVITY

Streamline operational processes like picking, packing, receiving and transfers to be more efficient and intuitive on a mobile or barcode scanning device.

MOBILIZE REMOTE/FIELD OPERATIONS

RFgen supports wireless and offline mobile data collection. Collect data in the field, then automatically update Deltek Costpoint when reconnected.

“ Accuracy has gone up to 99.999%. But RFgen also improves productivity and that drives efficiency downstream. RFgen makes a huge difference in how quickly CyberCore can invoice our customers, improving our cash flow. ”

- Jason Mulholland, Director of IT, CyberCore

PEACE OF MIND WITH VALIDATED INTEGRATION TO DELTEK COSTPOINT

Whether you want to implement wireless barcode scanning, support off-network workflows or automate your warehouse operations, RFgen Mobile Foundations for Deltek Costpoint delivers:

- ▶ **Validated Connectivity to Costpoint**—Data collected by RFgen is validated against business data residing in Costpoint and transactions are executed using Costpoint web services.
- ▶ **Seamless Integration**—All RFgen pre-built mobile applications, or any new applications you develop, automatically use the validated integration for real-time (or offline batch) updates to your Costpoint system.
- ▶ **Pre-Built Mobile Apps**—RFgen Mobile Foundations for Deltek Costpoint provides you with a suite of pre-built mobile applications that seamlessly integrate with Costpoint to handle the most common inventory management workflows.
- ▶ **Mobile Application Customization the Easy Way**—When you purchase RFgen, you receive the source code for the pre-built suite of mobile applications. You can request RFgen Professional Services or use the RFgen Mobile Development Studio yourself to modify or create mobile applications using a drag-n-drop interface; developers get a .NET based scripting environment for code-level control. Applications are written once and can be deployed across multiple device platforms, including Windows Mobile, Windows CE, Apple iOS and Android.

GET A HEAD START WITH PRE-BUILT MOBILE APPS

INVENTORY MANAGEMENT

Ensure optimal inventory levels by capturing accurate quantities and locations. Benefit from instant access to item availability information—both within the warehouse and out in the field.

MANUFACTURING

Reduce inventory levels, enhance supplier and customer relationships and improve the accuracy of manufacturing schedules.

PURCHASE ORDER PROCESSING

Optimize procurement for speed, efficiency and accuracy. Effectively and consistently manage your purchasing processes.

SIGNS YOUR COSTPOINT CUSTOMER NEEDS RFGEN

- ▶ Using paper-based and manual processes to track inventory and is looking for wireless barcoding or RFID system that integrates with Costpoint to improve efficiency, accuracy and productivity in their warehouse or supply chain.
- ▶ Has a problem with inventory visibility - doesn't know where inventory is located and/or what is available to sell or use in real-time.
- ▶ Has a problem with warehouse labor efficiency and productivity - doesn't know what workers are doing or thinks labor costs are too high to get orders out correctly.
- ▶ Has a problem with shipping customer orders correctly (mispicking or misshipping items to customers.)
- ▶ Has a problem with manufacturing inventory related to keeping up with raw materials inventory, work in process inventory, or inventory produced.
- ▶ Has a problem related to capturing equipment or assets inspection data - need to provide proof of inspection.
- ▶ Has a problem with end-to-end inventory tracking and complying with DFARS or other government mandates to prevent counterfeit parts, etc.
- ▶ Has a problem related to proof of delivery - needs a system to track that an order actually got delivered to the customer.
- ▶ Has inventory in a remote location such as a yard or ship and needs a mobile solution that can handle offline data collection.

GAIN A COMPETITIVE ADVANTAGE WITH SUPPLY CHAIN ACCELERATORS

Supply chain professionals face strategic challenges, governmental and economic pressures, and a multitude of tactical issues every day. RFgen offers mobile solutions to address these challenges and help you optimize your supply chain operations.

GAIN EFFICIENCY WITH THE RFGEN LICENSE PLATING SOLUTION

Track inventory better, reduce paperwork and increase warehouse efficiency. Integrated with your Deltek Costpoint system, the RFgen License Plating Solution can substantially reduce the number of scans needed to enter a transaction since only one barcode needs to be scanned to completely identify goods.

RFGEN WAREHOUSE DIRECTOR SOLUTION

Get the efficiency benefits of a WMS without the cost and complexity with the RFgen Warehouse Director Solution. At a fraction of the cost of a WMS, this “WMS-lite” system helps you transition to a paperless warehouse and improve employee productivity. Optimize warehouse space, workflows and picking routes to increase throughput and order accuracy.

RFGEN OFF-NETWORK MOBILITY SOLUTIONS

Automate remote warehouses and field sales/service operations with support for roaming, occasionally-connected data collection using on-demand cellular/Wi-Fi connectivity to Deltek Costpoint. RFgen also supports fully disconnected scenarios where data is pre-loaded on the device, remote activities are locally validated, and transactions are exchanged with Deltek Costpoint at various intervals.

RFGEN SOFTWARE - YOUR TOTAL SOLUTION PROVIDER

We help organizations reduce supply chain implementation costs and increase accuracy and efficiency with the industry's most reliable, flexible mobile data collection and barcode software solutions. Since 1983, we have become the industry leaders for supply chain barcoding solutions. Our global network offers worldwide support for complete end-to-end mobile data collection solutions. We not only provide robust mobile supply chain software, we also offer a complete end-to-end mobile data collection solution, including:

WHERE RFGEN IS USED

Warehouse and
Distribution Centers

Manufacturing
and Production

MRO and Asset Management

Field Service and Delivery

SUPPORTED TECHNOLOGIES

DATA COLLECTION

- Android Devices
- Barcode Scanners
- Carousels and Scales
- iOS Devices
- RFID
- Tablets and Smartphones
- Vehicle Mount Computers
- Voice Recognition
- Windows 10, Mobile and CE

GENERAL CONNECTIVITY

- COM Interop
- Databases
- IBM AS/400
- IBM Mainframes
- NET Assemblies
- UNIX Systems
