

SAP INVENTORY MANAGEMENT – REVERSE GOODS MOVEMENT

This application will reverse a line on an existing Material Document.

RFgen Functional Documentation
2019

RFgen provides its customers SAP-validated, ready-to-use suites of Open Source applications and a development environment that can be used to create new apps or to modify existing apps.

This document describes the business workflow and technical information used in this application.

SAP IM –Reverse Goods Movement Workflow

FIMRG0200 IM – Reverse Goods Movement

This application will reverse a line on an existing Material Document.

Description of Workflow

First the user will scan or enter a Material Document number.

The user must enter the year the Material Document was created.

The user enters the document's line number to be reversed.

Selecting the **Submit** button will post the reversal and reset the application.

The arrow in the upper left corner will take the user back to the menu.
