

FLEXIBLE AND FAST MOBILE APPLICATIONS DEVELOPMENT

WE HELP MAXIMIZE YOUR DYNAMICS/AX INVESTMENT

RFgen clearly differentiates itself with its comprehensive, best-practices approach to solving real-world business challenges. We have learned that optimal solutions for material management and supply chain logistics control are made up of many components that are purposely designed to work together.

Optimizing each individual component and managing their seamless integration into a total solution takes extraordinary levels of domain expertise and years of actual project implementation experience across a variety of industries and operating environments.

RFgen managed solutions are proven to reduce or eliminate many common implementation issues, increase operational efficiencies and significantly strengthen overall user acceptance. RFgen solutions deliver on the promise to maximize the total value you obtain from your technology and Dynamics/AX enterprise investments.

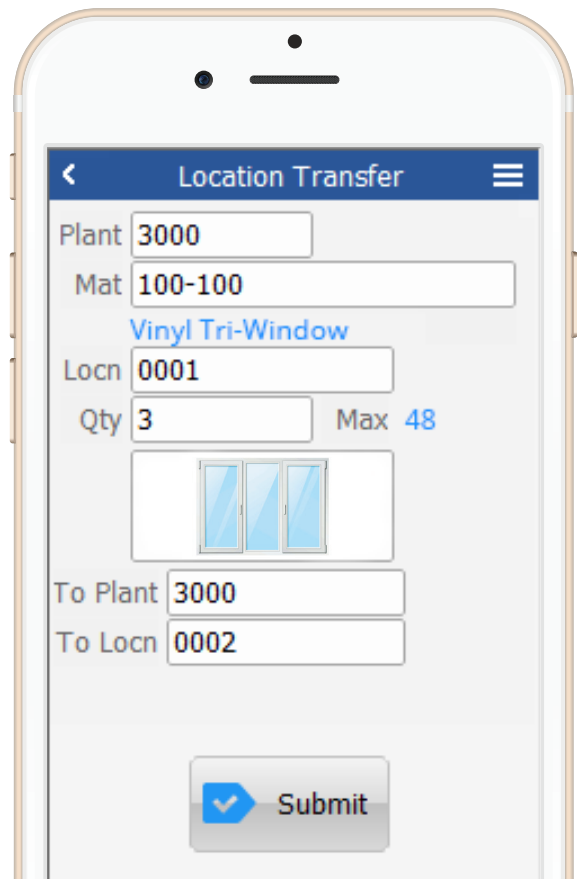

“ Using RFgen, we have seen huge increases in both the speed and the accuracy of our voice based receiving and put away operations. ”

- Dan Knesel,
IT Manager

AT RFGEN, WE HELP TURN IMAGINATION INTO REALITY

Imagine your business technology and supply chain processes running so smoothly that you have real-time information regarding order status, inventory availability and employee performance. Imagine being able to quickly respond to changes in your business environment and to deploy process improvements without disrupting your existing operations.

Imagine you can quickly establish technology solutions that keep you competitive, without having to assume unnecessary technical and financial risk. At RFgen, we believe that every business should have access to advanced technology solutions tailored to their specific needs and delivered with personal service and support.

YOUR TOTAL SOLUTION PROVIDER

We help organizations reduce supply chain implementation costs and increase accuracy and efficiency with the industry's most reliable, flexible mobile data collection and barcode software solutions. Since 1983, we have been the industry leaders for supply chain barcoding solutions. We not only provide robust mobile supply chain software, we also offer a complete end-to-end mobile data collection solution, including:

Mobile device hardware for your data collection needs.

As your one-stop-shop, we can provide you with the mobile device hardware you need to automate your warehouse. By working with RFgen for both your hardware and software needs, you are guaranteed a holistic, comprehensive approach to your entire data collection solution.

Professional consulting services for a smooth implementation.

Our Professional Services team is here to help you customize and implement your new RFgen system. Our expertise covers data collection technologies, popular ERP systems, and supply chain automation best practices—a trifecta of skills necessary for the successful planning, development and deployment of your data collection solution.

Education to help you maximize your investment.

We offer a variety of training options including classroom and video conferencing options. Training is conducted by the same supply chain experts that design and develop solutions for our customers.
