**36+**  
YEARS OF  
EXPERIENCE

**35+**  
COUNTRIES

**Global**  
PARTNER NETWORK

RFgen version 5.2 raises the bar by providing unparalleled flexibility in creating the mobile user experience. RFgen 5.2 introduces a new design philosophy built on re-usability, automatic scaling across devices, and focused UI designed to guide users through tasks, step-by-step. Consolidated backend architecture improves overall performance and security enhancements, both online and offline, while remaining backward compatible.

The end result is a rich user experience at maximum productivity—regardless of device.

## BENEFITS OF 5.2: SIMPLICITY AND SPEED

RFgen 5.2 empowers you to create more intuitive user experiences, more rapidly than ever, with less effort. Expect:

### Faster App Design

Increase mobile app development speed by up to 600% with reusability and auto-scaling across devices and operating systems.

### Maximize Productivity

Drive productivity for all your users with newly re-designed mobile app suites built for ease and focus with guided steps.

### Sub-second Scanning

Software scanning enables consumer-grade phones and tablets running Android/iOS to scan at industrial speeds.

# WHAT'S NEW IN 5.2

- ▶ **New Unity Graphics Engine** harmonizes UI/UX across all platforms.
- ▶ **Redesigned Mobile Application Suites** with focused UI and guided workflows.
- ▶ **Reusable Containers** make control groups re-usable across applications.
- ▶ **Advanced Themes** with theme-based color, transparency, branding and more.
- ▶ **Additional Graphical Controls** such as radio buttons, spin edit, and memos.
- ▶ **Auto-Scaling and Anchoring** to easily conform apps to different screen sizes.
- ▶ **Design by Target** enables faster validation with true-to-life device emulation.
- ▶ **Snap-to Visual Aids** simplifies element alignment and proportionality.
- ▶ **Improved Offline Speed** with up to 85% faster data transfers in offline batch mode.
- ▶ **Android/iOS Scan Engine** software equips consumer devices with sub-second scan speeds.

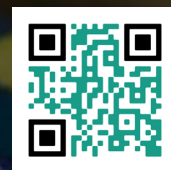

## Expert Help: Get the Most Out of RFgen 5.2

Our skilled experts can help you unlock the latest RFgen 5.2 capabilities with maximum benefits, from converting your existing applications into the new 5.2 format to re-imagining your applications for additional productivity benefits. Ask about our pilot program to measure 5.2's impact on your operation.
