

Mobile Edge™ for SAP

Extend and enhance your SAP supply chain with industry-best mobile barcoding and data collection.

Mobilize SAP With Supply Chain Automation

RFgen Mobile Foundations is the industry-best mobile barcoding solution for SAP. RFgen's architecture provides built-in best practices for mobile inventory management with unparalleled security, speed, and flexibility to maximize performance and minimize waste. Lightning-fast mobile apps bring the power of SAP to wherever your people work, online or offline, in the warehouse or in the field.

SAP-Certified Integration

Certified in all versions of SAP: R/3, ECC, and S/4. Supports cloud, on-premises, hybrid and multi-tier deployments.

Maximum Data & Device Security

Leverage the highest level of security for your mobile data collection with support for single sign-on (SSO), SSL encryption, offline safeguards, and more.

Low-Code Mobile App Development

RFgen includes the premier low-code mobile app development platform (MADP) for creating mobile supply chain apps. Modify pre-built, pre-validated logic for SAP or build your own.

RFgen Features & Capabilities

RFgen Mobile Foundations for SAP can help you unlock new levels of performance, control, and oversight in critical supply chain operations. Mobile apps provide two-way data exchange with SAP and other business systems in real time. Configure pre-built mobile apps for your business or create your own using RFgen's mobile app templates and tools.

- ▶ **Transaction Automation**—Replace manual inventory practices with real-time digital process automation with 30% more efficiency.
- ▶ **Workforce Mobilization**—Increase productivity by 30% by performing SAP updates at the point of activity, reducing wait and walk time.
- ▶ **Automatic Data Collection**—Drive inventory accuracy to 99.9% and above with world-class mobile barcoding technology.
- ▶ **Easy to Manage**—Manage, deploy and support remotely. Device agnostic software runs on Android, iOS and Windows.
- ▶ **Rapid Mobile App Creation**—Develop new transactions specifically for supply chain using low code. No deep skillsets needed.
- ▶ **Off-network Mobility**—Industry's best offline and high availability data collection solutions for 365/24/7 operations.

"RFgen has eliminated waste in data collection and improved information flow, bringing us one step closer to a true 'perfect' plant."

Eduardo Lozano, Procurement Planning and Control Manager
Grupo Cementos de Chihuahua

RFgen Mobile App Suites for SAP

Shorten implementation and accelerate operations with pre-written, pre-tested mobile apps validated by SAP. Applications can be easily conformed to your exact business processes. Mobile app suites include:

- ▷ Inventory Management
- ▷ Warehouse Management
- ▷ Extended Warehouse Management
- ▷ Purchase Orders
- ▷ Production Orders
- ▷ Sales Orders
- ▷ Plant Maintenance
- ▷ Fixed Assets

RFgen Software - Your Total Solution Provider

Software. Hardware. Services. Expertise.

Since 1983, RFgen has helped organizations reduce supply chain costs through increased accuracy and efficiency with the most reliable, flexible mobile barcoding solutions in the industry. Our global network offers worldwide support for complete end-to-end visibility through data collection. RFgen provides robust mobile software and hardware, as well as guidance and expertise based on decades of experience and best practices.

RFgen is Already Used Worldwide For:

- ▷ Warehouse and Distribution Centers
- ▷ Manufacturing and Production
- ▷ MRO and Asset Management
- ▷ Field Service and Delivery

1101 Investment Blvd, Suite 250 | El Dorado Hills | CA 95762
(888) 426-2286 | LetsTalk@rfgen.com | www.rfgen.com

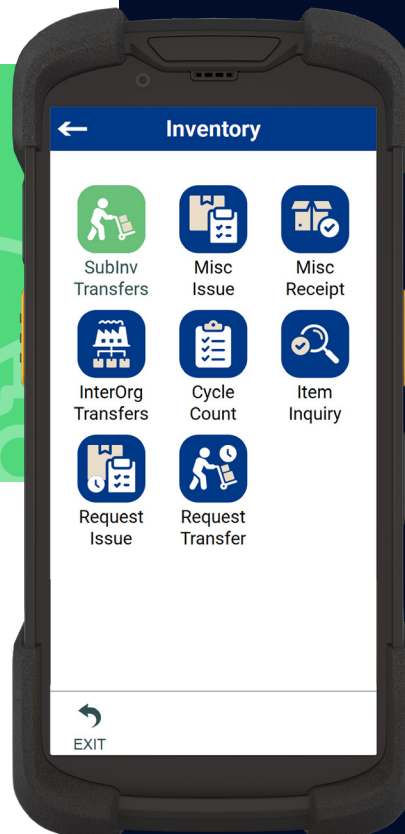

Supported Technologies

Data Collection

- ▷ Barcode Scanners
- ▷ Mobile Computers
- ▷ Tablets and Smartphones
- ▷ Vehicle Mount Computers
- ▷ RFID
- ▷ IoT & IIoT Devices
- ▷ Carousels, Conveyors, Scales
- ▷ Helper Bots, Drones and LGVs
- ▷ Voice Recognition

General Connectivity

- ▷ COM Interop
- ▷ Databases
- ▷ IBM AS/400
- ▷ IBM Mainframes
- ▷ NET Assemblies
- ▷ UNIX Systems
- ▷ Web Service
